# EARTH AND ENVIRONMENTAL SCIENCES

The Earth and Environmental Sciences major at UCA provides a broad scientifically focused curriculum grounded in relevant social and cultural issues important in mountain regions of Central Asia and beyond. The transdisciplinary curriculum covers geosciences, environmental sciences, and related social sciences. At its foundation are core courses in natural sciences together with requisite courses in the humanities and social sciences.

# GLOBAL ECONOMICS

The Global Economics major at UCA provides a broad education designed to understand and seek solutions to contemporary economic, financial, environmental and social challenges facing the world.
